

Staying Home Leaving Violence

*Keeping women and
children safer*

ARE YOU, OR SOMEONE YOU KNOW, EXPERIENCING DOMESTIC AND FAMILY VIOLENCE?

Staying Home Leaving Violence is a free and accessible service supporting women and their children to safely leave a domestic and family violence relationship while remaining in their home, or moving to a home of their choice.

We provide a safe, respectful and confidential local service where women are listened to, and supported without judgement. We believe every woman deserves to feel empowered to make informed decisions about her safety, wellbeing and future.

Our team can assist women to connect with supports, advocate on their behalf, and help them find responses that best meet their individual needs, experiences and circumstances.
